

Hot link: Local Education Authority

All venues used by the LEA are vetted for their appropriateness, fitness for purpose and checked for disabled access.

Delegates indicate any special needs when making application and tutors ensure that all development activities are fully inclusive, for example a signer is made available if anyone indicates hearing impairment and there is a facility within the local authority to produce course materials in Braille.

All approved tutors are fully conversant with inclusive practices and are expected to understand and impellent the Disability at Work Act.

If there is a demand, crèche facilities can be organised at appropriate centres.

Timing of course varies in order to accommodate differing needs of delegates.
